

**Biology 2652 Human Anatomy/Physiology II**

**Biology Department, College of Arts and Sciences, Valdosta State University  
Sections A, B, C, D (CRNs 26243, 26244, 26245, 26246) (4 credit hours)**

**Spring Semester, 2024**

**Instructor** - Dr. J. Mitchell Lockhart

**Office** – Biology/Chemistry Building, Room 2029

Phone: 333-5767, Biology office – 333-5759

Email: jmlockha@valdosta.edu

**Office Hours:** Monday, 11AM-12PM, Thursday, 10-11AM

Virtual by Teams: Wed: 10:00-10:45 (A), 10:45-11:30 (B), 11:30-12:15 (C), 12:15-1:00 (D)

**Course hours:** Lecture – Face to face (11:00AM-12:15PM, BSC 1011), possible asynchronous lectures on some days. Most lectures will be available on Blazevue in Kaltura

Lab – Face to face (BSC 1203).

M – Lab A - 9:00-10:50, Lab B - 12:00-1:50, Lab C – M 2:00-3:50.

T – Lab D – 9:00-10:50

**Textbook** - G.J. Tortora and B. Derrickson, *Principles of Anatomy and Physiology*, 15th Ed. or 16<sup>th</sup> E. (**Required**). **WileyPlus is used for the course and is Mandatory.**

**Note:** A first day option is available for this course, therefore there are no acceptable excuses for not having the textbook or WileyPlus access on the first day of class.

**Laboratory Textbook** – Not applicable. All laboratory information is available online for free.

**Course Description:** This course is the second in a two-part series. BIOL 2652 is a continuation of human anatomy and general physiological principles with emphasis on endocrine, cardiovascular, lymphatic, respiratory, digestive, excretory, and reproductive systems; and development.

**Pre-Requisite:** BIOL 2651

**Attendance: MANDATORY!** I do keep track of who is and isn't attending lecture and laboratory. This course has a considerable amount of new concepts and terminology and it is in your interest to attend class regularly. Any student disrupting the classroom and affecting the learning experience of others will be asked to leave. Along these lines, **NO** cell-phones, beepers, and/or associated earpieces or headphones are allowed either in the **lecture room or laboratory**. If you bring them to class, they must be turned **OFF (not on vibrate)** and placed **out of view**. **Students are not permitted to leave the lecture or laboratory rooms to receive messages during regular course time.** My policy is not to give a warning, rather, if a cell-phone or beeper activates during lecture/laboratory or you attempt to view or send messages, **you will lose one LETTER GRADE from your final grade.** Viewing a cell-phone or pager that activates on "silent" mode during a quiz or exam will be treated as an instance of **CHEATING** and handled accordingly (**in addition to the above penalty**). Those wishing to utilize laptop computers **as part of the class** are required to sit in the first few rows of the classroom. Viewing any material other than class material will result in the same penalties above.

**From the VSU Catalogue: Whether online or face-to-face, a student who misses or does not participate in more than 20% of the scheduled course or course activities could be subject to receiving a failing grade in the course.**

The University does not issue an excuse to students for class absences. In case of absences as a result of illness or special situations, instructors may be informed of reasons for absences, but these are not excuses.

**I will enforce this absence limit**, therefore after 6 lecture absences (for any reason) a student will be assigned an F for the course. After 3 laboratory absences (for any reason), a student will be assigned an F for the course. Repeated tardiness will be dealt with by administratively withdrawing the student(s) from the course AND/OR mandatory first of class quizzes for the entire class.

**Students With Documented Disabilities:** Students requiring accommodations or modifications because of **documented** disabilities should discuss this need with Dr. Lockhart at the beginning of the semester. Students with disabilities who are experiencing barriers in this course may contact the Access Office for assistance in determining and implementing reasonable accommodations. The Access Office is located in Farber Hall. The phone numbers are 229-245-2498 (V), 229-375-5871 (VP) and 229-219-1348 (TTY). For more information, please visit VSU's Access Office or email: [access@valdosta.edu](mailto:access@valdosta.edu).

**Assessment:** For the lecture grade, four exams plus a comprehensive final will be given. Questions will be based on material covered in lecture and in my notes. Exam questions will be in a variety of formats including (but not limited to) essay, short answer, multiple choice, fill in the blank, drawings, etc...Any questions concerning grading should be brought to the attention of the professor **NO LATER** than one week following return of the exam. I also will occasionally give unannounced quizzes to ensure that everyone is on time, attending class, and keeping up with lecture material. **NO make-up lecture exams or quizzes will be given for any reason. Should you miss an exam for ANY reason, you may take the comprehensive final to replace the missed exam grade.**

For the laboratory grade, 3 lab practicals will be given. The **Lab practicals cannot be made up. If a lab practical is missed, you will receive a zero for that lab grade.**

**NOTE: All exams will be online. You are required to have lockdown browser with camera access.**

The final grade will be a combination of your final lecture score and laboratory score. Lecture will comprise 55% and lab will comprise 35%. The lecture final will be comprehensive and **OPTIONAL**. For those wishing to better their grade, this exam score will replace the lowest written exam score received during the semester.

10% of your grade will be successful completion of WileyPlus assignments.

Grade Scale: **90-100 = A, 80-89 = B, 70-79 = C, 60-69 = D, <60 = F**

**Privacy Act:** Because of the Buckley Amendment or Privacy Act, grades will not be discussed over the phone, via email, given to friends, or given to relatives. Grades will be available via Blazeview.

**Title IX:** Valdosta State University (VSU) is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. VSU is dedicated to creating an environment where all campus community members feel valued, respected, and included. Valdosta State University prohibits discrimination on the basis of race, color, ethnicity, national origin, sex (including pregnancy status, sexual harassment and sexual violence), sexual orientation, gender identity, religion, age, national origin, disability, genetic information, or veteran status, in the University's programs and activities as required by applicable laws and regulations such as Title IX. The individual designated with responsibility for coordination of compliance efforts and receipt of inquiries concerning nondiscrimination policies is the University's Title IX Coordinator: Maggie Viverette, Director of the Office of Social Equity, [titleix@valdosta.edu](mailto:titleix@valdosta.edu), 1208 N. Patterson St., Valdosta State University, Valdosta, Georgia 31608, 229-333-5463.

**Student Opinion of Instruction Statement:** At the end of the term, all students will be expected to complete an online Student Opinion of Instruction survey (SOI) that will be available through SmartEvals. Students will receive an email notification through their VSU email address when the SOI is available (generally at least one week before the end of the term). SOI responses are anonymous to instructors/administrators, and they will be able to access results only after they have submitted final grades. Before final grade submission, instructors will not be able to see any responses, but they can see the percentage of students who have or have not completed their SOIs. While instructors will not be able to see student names, an automated system will send a reminder email to those who have yet to complete their SOIs. Students who withdraw or drop a course will also be sent invitations to complete the Dropped Course Survey. Complete information about the SOIs, including how to access the survey, is available on the [SOI Procedures webpage](#).

### **Virtual Proctored Exams:**

#### **USING LOCKDOWN BROWSER AND A WEBCAM FOR ONLINE EXAMS**

This course requires the use of LockDown Browser and a webcam for online exams. The webcam can be built into your computer or can be the type that plugs in with a USB cable. Watch this short video (<http://www.respondus.com/products/lockdown-browser/student-movie.shtml>) to get a basic understanding of LockDown Browser and the webcam feature. A student Quick Start Guide (<http://www.respondus.com/products/monitor/guides.shtml>) is also available.

**Cheating:** Refer to the Student Code of Ethics in the Valdosta State University Student Handbook. A student caught cheating will be penalized ranging from receiving a zero for that assignment or test to failing the class.

**Important Dates:** Mid-Term – February 29, **Final Exam** – Wednesday, May 2, 10:15AM-12:15PM

**\* The Instructor reserves the right to modify the above contents with proper notification.**

#### **Course Outcomes: Course:**

By the end of BIOL 2652, students who successfully complete the course should have:

1. Gained factual knowledge, to include anatomy and physiological terminology, methods, and principles, about Anatomy and Physiology II. (DO – 2,3,5; VSUGEO – 5)
2. Learned fundamental principles, generalizations, or theories of Human Anatomy and Physiology II. (DO – 2,3,5; VSUGEO – 5)
3. Learned to apply course material (to improve thinking, problem-solving, and decisions) in Human Anatomy and Physiology II. (DO – 2,3,5; VSUGEO – 5)
4. Developed specific skills, competencies and points of view needed by professional in the fields most closely related to Anatomy and Physiology II. (DO – 2,3,5; VSUGEO – 5)
5. Acquired an interest in learning more by asking questions and seeking answers about Anatomy and Physiology II. (DO – 2,3,5; VSUGEO – 5)

#### **Department:**

1. Develop and test hypotheses, collect and analyze data, and present the results and conclusions in both written and oral formats used in peer-reviewed journals and at scientific meetings.
2. Demonstrate an understanding of the systems studied in Anatomy and Physiology II

#### **Valdosta State University General Education Outcomes:**

1. Students will demonstrate understanding of the society of the United States and its ideals. They will possess the requisite knowledge of the society of the United States, its ideals, and its functions to enable them to become informed and responsible citizens. They will understand the connections between the individual and society and the roles of social institutions. They will understand the structure and operational principles of the United States government and economic system. They will understand United States history and both the historical and present role of the United States in the world.
2. Students will demonstrate cross-cultural perspectives and knowledge of other societies. They will possess sufficient knowledge of various aspects of another culture, including the language, social and religious customs, aesthetic expression, geography, and intellectual and political history, to enable them to interact with individuals within that society from an informed

perspective. They will possess an international viewpoint that will allow them to examine critically the culture of their own nation and to participate in global society.

3. Students will use computer and information technology when appropriate. They will demonstrate knowledge of computer concepts and terminology. They will possess basic working knowledge of a computer operating system. They will be able to use at least two software tools, such as word processors, spreadsheets, database management systems, or statistical packages. They will be able to find information using computer searching tools.
4. Students will express themselves clearly, logically, and precisely in writing and in speaking, and they will demonstrate competence in reading and listening. They will display the ability to write coherently in standard English; to speak well; to read, to understand, and to interpret the content of written materials in various disciplines; and to listen effectively and to understand different modes of communication.
5. Students will demonstrate knowledge of scientific and mathematical principles and proficiency in laboratory practices. They will understand the basic concepts and principles underlying scientific methodology and be able to collect, analyze, and interpret data. They will learn a body of scientific knowledge and be able to judge the merits of arguments about scientific issues. They will be able to perform basic algebraic manipulations and to use fundamental algebraic concepts to solve word problems and equations. They will be able to use basic knowledge of statistics to interpret and to analyze data. They will be able to evaluate arguments based on quantitative data.
6. Students will demonstrate knowledge of diverse cultural heritages in the arts, the humanities, and the social sciences. They will develop understanding of the relationships among the visual and performing arts, literature and languages, and history and the social sciences. Students will be versed in approaches appropriate to the study of those disciplines; they will identify and respond to a variety of aesthetic experiences and engage in critical thinking about diverse issues. They will be able to identify the components of and respond to aesthetic experiences in the visual and performing arts. They will develop knowledge of world literature within its historical and cultural frameworks. They will understand modern issues within a historical context and the role of the individual in various forms of societies and governments.
7. Students will demonstrate the ability to analyze, to evaluate, and to make inferences from oral, written, and visual materials. They will be skilled in inquiry, logical reasoning, and critical analysis. They will be able to acquire and evaluate relevant information, analyze arguments, synthesize facts and information, and offer logical arguments leading to creative solutions to problems.
8. Students will demonstrate knowledge of principles of ethics and their employment in the analysis and resolution of moral problems. They will recognize and understand issues in applied ethics. They will understand their own value systems in relation to other value systems. They will judge values and practices in a variety of disciplines.

**BIOL 2652**  
**Human Anatomy and Physiology II**  
**Dr. J. Mitchell Lockhart**

---

**Tentative Lecture Outline - This is the order in which we will cover topics.**

<b>TOPIC</b>	<b>TEXT CHAPTERS</b>
The Endocrine System	18
The Cardiovascular System: The Blood	19
The Cardiovascular System: The Heart	20
The Cardiovascular System: Blood Vessels and Hemodynamics	21
The Lymphatic System and Immunity	22
The Respiratory System	23
The Digestive System	24
The Urinary System	26
The Reproductive Systems	28
Development and Inheritance	29
<i>Metabolism and Nutrition</i>	25
<i>Fluid, Electrolyte, and Acid–Base Homeostasis</i>	27

**Lecture Exams:**

- 1 – February 1
- 2 – February 29
- 3 – April 2
- 4 – April 25

**Final Exam:**

**Wednesday, May 2, 10:15AM-12:15PM**

### Tentative Laboratory Schedule

<b>Week of</b>	<b>Topic</b>
<b>Jan 8</b>	<b>NO LAB</b>
<b>Jan 15</b>	<b>NO LAB – MLK Holiday</b>
<b>Jan 22</b>	<b>NO LAB</b>
<b>Jan 29</b>	Blood physiology
<b>Feb 5</b>	Sheep heart dissection 1
<b>Feb 12</b>	Sheep heart dissection 2, Pulse and Blood Pressure
<b>Feb 19</b>	Fetal Pig - Anterior blood vessels
<b>Feb 26</b>	Fetal Pig - Posterior blood vessels, Review
<b>Mar 4</b>	<b>Lab Practical 1</b>
<b>Mar 11</b>	<b>NO LAB – Spring Break</b>
<b>Mar 18</b>	Fetal pig digestive and immune systems
<b>Mar 25</b>	Fetal pig respiratory system, Review
<b>Apr 1</b>	<b>Lab Practical 2</b>
<b>Apr 8</b>	Fetal pig urinary and reproductive systems
<b>Apr 15</b>	Finish and Review
<b>Apr 22</b>	<b>Lab Practical 3</b>
<b>Apr 29</b>	<b>NO LAB – Last lecture day</b>
